Thomas Jefferson High School for Science and Technology September 2012- June 2016

Work Experience

Program Manager Intern Microsoft May 2019 - August 2019

- Interviewed over 20 users of varying visual impairments, to learn about their pain points with color on Windows.
- Built multiple high fidelity designs of accessibility features and presented them to the head of Windows design.
- Analyzed feedback from my designs to create a product spec that will be built into the next version of Windows.

8VC Fellow | Software Engineering Intern 8VC/BuildZoom May 2018 - August 2018

- Worked across the web stack (Angular/Rails) to build new features and additions to the application
- Upgraded the BuildZoom scoring algorithm and communications infrastructure based on customer feedback
- Attended events with 8VC companies/investors while building amazing relationships with students in my cohort

Software Engineering Intern ID.me June 2016 - August 2017

- Integrated new features into ID.me Shop, the company's customer facing affiliate network marketplace
- Built a new federated authentication strategy into the ID.me SSO service

Organizations and Activities

Co-Founder Startup Purdue December 2018 - Now

- Built this brand as one of the founding members of the Purdue Student Entrepreneurship Council.
- Managed initiatives to grow Purdue's startup ecosystem in conjunction with Purdue and the City of West Lafayette.
- Developed the Startup Purdue website and lobbied for it to be the landing page for the Purdue startup ecosystem.

Director of Growth The Anvil January 2018 - Now

- Founded the first ever Purdue Startup Career Fair and brought out over 27 companies and 500 students.
- Managed growth/finance and led a team of 20 students to grow and operate Purdue's biggest startup org.
- Worked with Purdue University and City of West Lafayette to raise over \$100,000 for student entrepreneurship

Founder/Executive Director DCHacks June 2014 - June 2016

- Founded one of the largest high school hackathons in the mid-Atlantic
- Raised over \$15,000 in corporate sponsorships from startups and large orgs such as Google and Microsoft
- Hosted over 300 students who built over 50 projects; teaching over 150 students how to code in the process

Select Projects

Podium 2018 - Now

- Building a platform that helps people be their own personal lobbyist and raise money for political causes.

Automailer 2018 - Now

- Built an email automation system for my clubs to send email blasts with templates, variables, and files.
